Progressive Web App

▲ 0–49 50–89 90–100

Performance

Metrics

First Contentful Paint	0.5 s	Time to Interactive	2.8 s
Speed Index	1.6 s	Total Blocking Time	310 ms
Largest Contentful Paint	1.1 s	Cumulative Layout Shift	0.118

Values are estimated and may vary. The [performance score is calculated](#) directly from these metrics. [See calculator.](#)

View Original Trace

Opportunities — These suggestions can help your page load faster. They don't [directly affect](#) the Performance score.

Opportunity	Estimated Savings
Remove unused JavaScript	0.44 s

Diagnostics — More information about the performance of your application. These numbers don't [directly affect](#) the Performance score.

- ▲ Ensure text remains visible during webfont load
- ▲ Does not use passive listeners to improve scrolling performance
- ▲ Image elements do not have explicit [width](#) and [height](#)
- ▲ Avoid enormous network payloads — Total size was 8,903 KiB
- Serve static assets with an efficient cache policy — 2 resources found
- Minimize main-thread work — 2.3 s

Avoid chaining critical requests — 3 chains found

User Timing marks and measures — 2 user timings

Keep request counts low and transfer sizes small — 56 requests • 8,903 KiB

Largest Contentful Paint element — 1 element found

Avoid large layout shifts — 3 elements found

Avoid long main-thread tasks — 3 long tasks found

Avoid non-composited animations — 43 animated elements found

Passed audits (23)

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Names and labels — These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

▲ Buttons do not have an accessible name

▲ Image elements do not have `[alt]` attributes

Contrast — These are opportunities to improve the legibility of your content.

▲ Background and foreground colors do not have a sufficient contrast ratio.

Navigation — These are opportunities to improve keyboard navigation in your application.

▲ Heading elements are not in a sequentially-descending order

Tables and lists — These are opportunities to improve the experience of reading tabular or list data using assistive technology, like a screen reader.

▲ List items (``) are not contained within `` or `` parent elements.

Additional items to manually check (10) — These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).

Best Practices

Trust and Safety

- ▲ Links to cross-origin destinations are unsafe
- ▲ Includes front-end JavaScript libraries with known security vulnerabilities — 1 vulnerability detected

Browser Compatibility

- ▲ Page lacks the HTML doctype, thus triggering quirks-mode Document must contain a doctype

General

- ▲ Registers an `unload` listener

SEO

These checks ensure that your page is optimized for search engine results ranking. There are additional factors Lighthouse does not check that may affect your search ranking. [Learn more](#).

Crawling and Indexing — To appear in search results, crawlers need access to your app.

- ▲ Links are not crawlable

Content Best Practices — Format your HTML in a way that enables crawlers to better understand your app's content.

- ▲ Image elements do not have `[alt]` attributes

Additional items to manually check (1) — Run these additional validators on your site to check additional SEO best practices.

Progressive Web App

These checks validate the aspects of a Progressive Web App. [Learn more.](#)

Installable

- ▲ Web app manifest or service worker do not meet the installability requirements — 1 reason

PWA Optimized

- ▲ Does not register a service worker that controls page and `start_url`
- Redirects HTTP traffic to HTTPS
- ▲ Is not configured for a custom splash screen **Failures: No manifest was fetched.**
- Does not set a theme color for the address bar.
- ▲ **Failures: No manifest was fetched, No `<meta name="theme-color">` tag found.**
- Content is sized correctly for the viewport
- Has a `<meta name="viewport">` tag with `width` or `initial-scale`
- Provides a valid `apple-touch-icon`
- ▲ Manifest doesn't have a maskable icon **No manifest was fetched**

Additional items to manually check (3) — These checks are required by the baseline [PWA Checklist](#) but are not automatically checked by Lighthouse. They do not affect your score but it's important that you verify them manually.
